MASTER OF INFORMATION SYSTEMS MANAGEMENT

MISM – 2024/25 (SLQF Level 09)

ONE YEAR | ONSITE PROGRAMME

APPLY ON OR **BEFORE 30th APRIL 2024**

🕐 **One Year Programme**   🔤 **English Medium**   📅 **Weekends** *(Onsite)*

Introduction

The Master of Information Systems Management (MISM) one-year programme examines the design, development and management of information systems and prepares students for careers in systems design, planning and management. This programme offers expertise and knowledge by studying how information is used in organisations to improve value chains and decision making, in a state-of-the-art environment conducive of high-tech innovation, knowledge engineering and business intelligence. Through this programme, students will be trained to recognise and welcome change in the business and information environment created by social, economic, political and technical developments. And this programme equips candidates to design solutions to business information problems, and to offer strategic guidance to organisations that will enhance their management and governance.

Objectives

(a) Demonstrate thorough understanding of the concepts and practical applications of information systems in business organizations.

(b) Describe the framework of information systems, its components and functionality and the business processes.

(c) Apply and illustrate the strategic importance of the information technology to businesses and illustrate how these technologies are used in business operations and management.

(d) Evaluate the role and importance of data/database resource management.

(e) Familiarize students with the latest technologies to develop and enhance business information systems.

(f) Explain and critically discuss the major theoretical and professional issues in business information systems.

(g) Analyze these issues and apply, plan and implement possible solutions to solve these problems systematically and creatively.

(h) Investigate business information systems problems through an independent study by utilising relevant methodologies for scholarly or professional purposes.

Admission Requirements

☑ A Bachelor's degree from a recognized University/ Institution in Information Systems Management; OR

☑ Any other Bachelor's degree, with prior learning/ work experience in information systems management; OR

☑ Postgraduate Diploma (SLQF 8) from a recognized University/ Institution or an equivalent qualification acceptable to the Faculty Board of the FGS and the Senate of University of Colombo with prior learning/ work experience in Information Systems Management; OR

☑ Professional qualification from a recognized professional body acceptable to the Faculty Board of the FGS and the Senate of the University of Colombo with prior learning/ work experience in Information Systems Management; OR

☑ Completion of NVQ level 7 (equivalent to Bachelor's degree in SLQF) with relevant work experience in Information Systems Management determined to be acceptable by the Faculty Board of the FGS and Senate of the University of Colombo;

AND
